

Plastic Waste Partnership – Examples of possible pilot project topics

Project Group 3 on Transboundary movements of plastic waste

Activity 1: Develop and undertake capacity building activities for implementation of the amendments to the Convention on plastic waste by relevant actors, including customs, and on linkages with the customs codes on plastics.

- Pilot training activities for customs and law enforcement authorities (e.g. container inspection, dealing with illegal plastic waste shipments etc.) to facilitate implementation of the amendments to the Convention on plastic waste.

Activity 2: Collection of information on actions taken by countries to implement the amendments to the Convention on plastic waste, on their interpretation of these amendments (e.g. “almost exclusively” and “almost free from contamination”) and on the challenges experienced in preparing for implementation.

Activity 3: Collect information, including on best practices, on enforcement in relation to transboundary movements of plastic waste.

Activity 4: Collect information on the transboundary movements of plastic wastes

- Pilot project to facilitate tracking and reporting of transboundary movements of plastic waste, using electronic systems and technologies, such as GPS technology
