

## **Plastic Waste Partnership – Examples of possible pilot project topics**

### **Project Group 4 on outreach, education and awareness-raising**

- In cooperation with producers of packaging, include information about reuse, recycling, recyclability and/or disposal options.
- Develop and pilot educational and outreach activities to reduce plastic litter through collection and sorting in specific countries (e.g. focusing on small island developing States).
- Develop and pilot an educational program for schools, supporting prevention and minimization of plastic waste.
- Design and pilot a social-media campaign about the work of the Plastic Waste Partnership.
